

AGENDA ITEM NO.

CITY OF HAWTHORNE CITY COUNCIL AGENDA BILL

For the meeting of June 8, 2021

Originating Department: Public Works

Interim City Manager: Vontray Norris Dir. of Public Works: Alan Leung
Vontray Norris Alan Leung

SUBJECT:

Progress Payment #2 to United Storm Water, Inc. of Industry, CA for Project #20-07, Street Inlet Improvement Project – Phase 2.

RECOMMENDED MOTION:

Staff recommends that the City Council approve this Progress Payment #2 to United Storm Water, Inc. of Industry, CA.

DISCUSSION:

The City contracted with United Storm Water, Inc. for the retrofitting existing catch basins with screens to capture trash. Under this agreement, United Storm Water, Inc. is measuring and assessing approximately 1,000 catch basins in the City.

This project helps the City meet pollution reduction requirements as detailed in the State's National Pollutant Discharge Elimination System (NPDES) permit. Approximately 500 of these will be retrofitted with Automatic Retractable Screens (ARS) and Connector Pipe screens (CPS) to capture trash. ARS and CPS units prevent trash and debris from entering the storm drain system during dry weather and moderate storm flows by keeping the trash and debris inside the catch basin or in the street gutter for collection by street sweepers.

This second progress payment includes the labor, materials, tools and equipment and all the work required in accordance with the Plans and Specifications.

FISCAL IMPACT:

None. The amount of \$46,620.20 is available in the current fiscal year's adopted budget and will be paid with approved and allocated Measure W Municipal fund.

NOTICING PROCEDURES:

72 hours posted notice pursuant to the Ralph M. Brown Act.
